

Cook Children's is proud to present this educational program for primary care physicians, nurse practitioners, physician assistants, nurses, social workers, psychologists, therapists and other allied health care professionals caring for patients with cancer and cancer survivors. We hope that you can take advantage of this unique opportunity to network with your peers and learn from clinical experts.

### **Overall conference objectives**

1. Identify unique care opportunities in survivors of childhood cancer.
2. Describe late effects and proper screening.
3. Name resources for minimizing morbidity among survivors of pediatric cancer.
